**SIMULATION / CAE**   **SOFTWARE**   **TEST & DESIGN**   **METHODS & PROCESSES**

We at IAT have been in the engineering business for more than 30 years. We support our customers from the automotive industry in development projects for vehicle safety with expertise and foresight and strive every day to ensure fair, informal, and uncomplicated cooperation. Openness, tolerance, and mutual support are the values that hold IAT together.

We are proud of the large number of satisfied customers and an unprecedented continuity among our employees - a confirmation of our somewhat different corporate philosophy, which does not let us lose the fun at work.

With around 100 employees at the Berlin and Ho Chi Minh City sites, we are one of the largest CAE service providers in the field of vehicle safety. For the design of occupant protection systems, we work closely with well-known automobile manufacturers, system suppliers and developers.

For our IT operations team we are now looking for motivated

IT SYSTEM ADMINISTRATORS

for our Berlin location

The IT operations team is in charge of all our IT facilities. This includes the server infrastructure, high-performance cluster, workstations in offices and home offices, and all network technology including segmented LAN, WLAN, multiple WAN connections, firewalls, voice services, etc. Central services such as software distribution, intranet, mail, file, database and backup servers, data management, dedicated services like software license servers, wiki, gitlab & CI-servers, etc, are also supplied and maintained by IT Ops for our users.

IAT is certified according to TISAX, ISO 27001 and ISO 9001. We attach particular importance to maintaining and further developing our IT security and quality standards.

Your Tasks:

- Support and administration of our server environment – mainly Linux (few Windows Server).
- Support and administration of our virtualization environment (VMware), High Performance Cluster (gridengine) and networks (VPN, firewall, customer connections, Wifi).
- Design and implementation of customized solutions for complex use cases.
- Optimisation and development of our existing IT infrastructure.
- Reliable and competent on-site IT support for our colleagues.

Your Profile:

- Highly proficient in Linux administration (command line, puppet, samba), familiar with MS Windows servers, clients, and associated applications.
- Fluent English, at least Basic German and willingness to learn.
- Team and communication skills, as well as a high degree of independence.

We offer you:

- An attractive salary.
- Flexible working hours, opportunity to work from home.
- Good work-life balance.
- Capital accumulation benefits, Jobrad.
- A modern, well-equipped and international working environment.
- Personal development opportunities, vocational training.
- Free beverages, fruit and vegetables.

If you are interested in this opportunity, please send your complete application documents to jobs@iatmbh.com.
